

07-P114 10m Waterjet LCT

The hull is a moderate deadrise monohedron with wide waterline beam for maximum stability and load carrying. The use of a conventional bottom with a reasonable entry rather than the more usual “scow” bow allows improved seakeeping. A useful vessel for inshore work in oil and gas fields and diving support.

PARTICULARS

Length Overall:	10.25 m
Length Overall (Hull):	9.2m
LWL:	7.76m
Beam:	3.1m
Design Draft (Hull):	0.35 m (Lightship)
Fuel:	500L
Propulsion:	CUMMINS 6BTA5.9-M (260bhp@2600rpm) direct driving a HJ274 w/jet .
Survey:	USL 2C
